

MEMORANDUM FOR: Mr. Dulles

24 DEC 1958

You will recall that when you read the attached article you said this was the sort of thing that you would like to have some advance notice of.

25X1A9a

I have checked with Stan Grogan's office on this matter and find that Mr. [REDACTED] speech was listed in the press contact weekly report of 9 September and that the talk had the approval of the Cover Division, the Office of Security and the DD/I. The speech, which was unclassified, was given to an audience of some 250 government, industrial and University of Colorado scientists.

It was very well received.
